

MGT-201 - Mini MBA in Telecommunications

MINI MBA

IN TELECOMMUNICATIONS

Master the Skills to Excel in Telecom Management

Next session: 6 - 10 August 2018, Amsterdam

"The course overachieved expectations & was most appreciated", E.J., MTN South Africa

Acquire the Cross-functional Knowledge, Skills and Techniques to Excel in Telecommunications Management with Neotelis' Mini MBA in Telecommunications

The telecommunications industry is becoming ever more global and competitive. Success in telecom requires sharp, business-savvy management teams and sound business management principles. The Mini MBA in Telecommunications covers the areas essential for organizational and personal success in telecommunications.

TAKE-AWAY BENEFITS

Attend Neotelis' Mini MBA in Telecommunications to learn the key business practices and managerial skills required to increase your contribution to the success of your organization and reach your personal goals.

Description

An intensive 5-day training course which provides participants with the cross-functional knowledge, skills, tools and techniques to excel in telecommunications management.

The course offers participants an opportunity to further master the management and business skills relevant to today's telecommunications industry. Through lectures, interactive working sessions and cases relevant to the international environment, the training course ensures that participants understand key business practices and helps develop their managerial skills to reach personal goals and increase their contribution to the success of their organization. The Mini MBA includes a 360° Executive Case, a project-based case study running through all 5 days. It is based on a real-life, current issue pulled from industry headlines and will allow participants to apply the cross-functional knowledge and tools acquired during the Mini MBA .

Learning Outcomes

Develop Your Competencies in Key Areas

- **Telecom Industry** ~ Latest and most important trends in the telecom sector
- **Technology & Network** ~ Essential understanding of current and upcoming network technologies
