

MGT-135 - Performance Management for Organizational Success

Description

Part of performance management is setting goals with team members. The important factor is that the goals that are set are aligned with the department's strategy, which in turn is aligned with the overall strategy of the organization.

This 3-day Training Course provides participants with the knowledge, tools and techniques required to set clear individual strategic measurement systems and use these Key Performance Indicators (KPIs) as tools to successfully manage the individual performance.

Learning Outcomes

At the end of the course, participants will be able to:

- Describe the importance of performance management on business success
- Define KPIs for their own department and team members in line with the corporate, business unit and departmental objectives, strategies and KPIs
- Explain the linkage between individual employee KPIs and departmental / corporate objectives and KPIs As part of performance appraisal and identify areas where employees require training and development
